Kombiverkehr Timetable 2010 and monthly timetables

Dear Sir or Madam,

We are writing to you today to inform you that Kombiverkehr publishes „monthly timetables“ in addition to the 2010 timetable also in this year. These monthly timetables show all scheduled services for a period of four weeks. In addition the 2010 timetable shows all the "regular" services.

This means that you can as of now refer to the following documents when researching timetable data:

Timetable 2010 and Online-Timetable

The 2010 timetable shows all the "regular" services that Kombiverkehr has scheduled for the 2009/2010 timetable period. It contains all the necessary information for your scheduling requirements, including routes, transport days, closing times for acceptance, starting times for unloading, journey times and profile details.

Furthermore you have the possibility to use the Online-Timetable.

Monthly timetables

Please refer to the monthly timetable to compare the "regular" services with the restricted range currently available. The scheduled train departures for the relevant transport days of a particular route are marked in the document with either "Scheduled departure" or "No departure".

The monthly timetables can also be downloaded from the above location on the internet or can be obtained from your usual contact.

Further monthly timetables will appear on the following dates:

- • In week 50 (2009) monthly timetable January 2010
- • In week 1 monthly timetable February 2010
- • In week 5 monthly timetable March 2010
- • In week 9 monthly timetable April 2010
- • In week 13 monthly timetable May 2010
- • In week 17 monthly timetable June 2010
- • In week 22 monthly timetable July 2010
- • In week 26 monthly timetable August 2010
- • In week 30 monthly timetable September 2010
- • In week 35 monthly timetable October 2010
- • In week 40 monthly timetable November 2010
- • In week 44 monthly timetable December 2010

Special announcements

Kombiverkehr will continue to publicise short-notice changes to the range of services set out in the monthly timetables through special announcements on the internet and elsewhere. Timetable changes concerning individual train products will be announced each calendar week. The special announcements will always appear on the Thursday of the previous week and can be found under "News" on the home page of our website. They will also be sent for specific trains by the staff of the National and International Transport departments.

Concerning your disposition it is advisable to adjust the Timetable 2010 and the current monthly timetable.
