PRICES

The prices for the connection can be found in the **Price List Belgium-Netherlands 2026** or in our CSV file **digital transport prices**. You can obtain these via download on [meinKOMBIVERKEHR](#) or on request by e-mail at vertrieb-benelux@kombiverkehr.de

BOOKING

Bookings for the connection can be made via [myKOMBIVERKEHR](#) or through the EDI interface.

TERMINAL INFORMATION

In addition to rail transport from or to Rotterdam RSC, it is also possible to book transshipments from or to the various Rotterdam port zones. The costs for the transfers as well as for other possible additional services at the RSC terminal can be found in the current [Price List Belgium-Netherlands](#).

Further information such as timetable information on possible gateway and antenna connections, the opening hours and parking conditions of the terminals, as well as general information on dangerous goods and customs units can be found on [meinKOMBIVERKEHR](#) or www.kombiverkehr.de

CUSTOMS

For goods subjects to customs, the details of the type of customs procedure and, if applicable, a valid Movement Reference Number (MRN) must be provided during the online booking process. The creation and processing of customs documents are not offered by Kombiverkehr. We are happy to assist you in finding a customs agent.

Contact person: Ulf Schroedter
uschroedter@kombiverkehr.de

TRACKING SHIPMENTS

You can track the status of your shipments at any time on [myKOMBIVERKEHR](#).

DANGEROUS GOODS & WASTE

The transport of dangerous goods is basically possible. Exceptions are dangerous goods with UN number 1005, 1017, 1026, 1048, 1050, 1051, 1053, 1067, 1069, 1076, 1082, 1259, 1614, 2480, 2188, 2192, UN 2199, 2202, 2204, 2418, 2481 & UN 2676. For class 1 dangerous goods, please contact ulueck@kombiverkehr-gefahrhut.de. In general, loading units with dangerous goods must be collected on the day of arrival and delivered on the day of departure. Further information can be found on [meinKOMBIVERKEHR](#) or www.kombiverkehr.de

DELIVERY & PICK UP

The pick-up requires the indication of the loading unit number and/or an exemption code. The exemption code can be found in the order overview in [myKOMBIVERKEHR](#) as well as in [Cesar NEXT](#). Alternatively, a collection can be made using a unique customer reference, which you can enter when booking.

For collection and delivery, the driver must provide the CT-UIRR order number as a reference in addition to the ILU code of the unit. For gateway shipments, this is taken from the CESAR Next system.

The carrier Carrier pre-notifies all drop-off and pick-up containers via Portbase MCA. Carrying a CargoCard is mandatory at the Rotterdam terminal. Due to increased security regulations, every truck driver now needs this card to enter the terminal. The CargoCard can be requested on the following website: www.secure-logistics.nl/nl/oplossingen/cargocard/ . IMPORTANT:

Kombiverkehr cannot issue this card for you.

In the case of non-EU goods, the seals on the loading unit and the accompanying documents required for rail transport (customs documents, commercial invoices, etc.) must be made known to the agency employees or handed over to them at the latest on delivery.

FURTHER INFORMATION ON MYKOMBIVERKEHR

Further information, such as the schedule for possible gateway and antenna connections, terminal opening hours, parking conditions, and general information regarding dangerous goods and customs units, can be found on [myKOMBIVERKEHR](#) or at www.kombiverkehr.de
