

INCIDENTAL CHARGES / HAZARDOUS GOODS 2019

INFORMATION SHEET

Valid from 01.01.2019

More than just a transport.

HAZARDOUS GOODS SURCHARGES / SAFETY SURCHARGES

For shipments with hazardous goods (accordance to ADR, RID or IMDG), a surcharge will be levied in certain cases. The currently known surcharges for hazardous goods shipments are indicated separately in the corresponding price lists. In the event that additional surcharges should become necessary, we will notify you promptly. The surcharges will be shown separately in the billing statement. The regulations for hazardous goods surcharges of foreign terminals can be found in the international price rules of Kombiverkehr. Find more information in the document „Country-specific information“ which can be downloaded on www.kombiverkehr.com > Services > Hazardous Goods & Waste > Hazardous Goods.

EARLY DELIVERY AND COLLECTION OF LOADING UNITS WITH HAZARDOUS GOODS

The customer has a duty to deliver loading units with hazardous goods on the day of dispatch only and to collect such loading units immediately upon arrival. Any exceptions must be agreed directly with the relevant terminal operator (the contact details for the terminals can be found in the Internet under www.kombiverkehr.com > Transport > Terminals & Agencies).

The regulations for early delivery and pickup in DUSS terminals are set out in the section entitled “Early delivery of loading

units with hazardous goods at DUSS terminals” and “Penalty for the belated pickup of loading units with hazardous goods in DUSS terminals”.

EARLY DELIVERY OF LOADING UNITS WITH HAZARDOUS GOODS AT DUSS TERMINALS

Loading units with hazardous goods can normally only be delivered to DUSS terminals earlier than the actual dispatch date by prior agreement with the local Kombiverkehr agency. Units containing hazardous goods must be delivered no more than 24 hours before the closing time for the dispatch date, subject to available storage capacity. Please note that early deliveries of hazardous goods units for departure by rail are only exempt from storage charges on the dispatch date itself. In the event of delivery before the dispatch date, storage fees and an additional handling charge as published for storage services will be levied (see Internet under www.kombiverkehr.com > Transport > Terminals & Agencies).

PENALTY FOR THE BELATED PICKUP OF LOADING UNITS WITH HAZARDOUS GOODS IN DUSS TERMINALS

Hazardous goods units shall be picked up at the DUSS terminals on the day of arrival, but in any event no later than during the opening hours of the following business day. If loading units are not picked up during this period, a penalty fee will

be charged. The following scale of charges will apply in this instance (per loading unit and calendar day):

- On first day subject to charge EUR 20
- On second day subject to charge EUR 55
- From third day subject to charge EUR 100

In gateway services this applies only to the destination terminal. In the case of forwarding (broken services), it also applies to the forwarding terminals.

Example gateway traffic:

*transportation from terminal A → terminal C via terminal B
At terminal B, there will be no penalty fee.*

*At terminal C (ultimate destination terminal), the
penalty fee will be charged if the penalty-free time
period is exceeded.*

Example transshipment:

*Transportation from terminal A → terminal B and from
terminal B → terminal C*

*The customer books two fare stages. At terminal B
(transshipment terminal) and C (ultimate destination
terminal), the penalty fee will be charged if the
penalty-free time period is exceeded.*

After the first chargeable day, every further calendar day (including the day of collection) will be charged. A distinction will also be made between availability of a loading unit before and after 18.00 h. Please refer to the following tables for more information.

GENERAL STORAGE CONDITIONS:

Please note that the terminal storage conditions apply additionally. These can be found under www.kombiverkehr.com > Transport > Terminals & Agencies.

SCHEDULED AVAILABILITY OF INCOMING TRAIN BEFORE 18.00 H
